

REPORT FOR THE IAA EUROPE MEETING 2016, November 5th-6th, BERLIN

Dear Friends,

our Association, recently born and became part of the family IAA/AIAP, was immediately activated in order to reach some first objectives and to be able to adequately represent the world of Italian artists..

The board of AIAPI is not yet deliberately complete and will be expanded and completed together with the growth that will have our Association in the near future.

AIAPI was accepted in IAA/AIAP in October 2015 and in these first months of its activity it has given priority to some first initiatives for the creation of conditions that will stimulate the adhesion of many members with an action of significant development planned for next year.

We therefore proceeded at first to the activation of

CONVENTIONS in favor of members IAA/AIAP worldwide.

Today, we have concluded agreements with Companies and Institutions, as follows:

- VERONA | ARTVERONA | 14/17 ottobre 2016 - discount on the ticket price from 15,00 to 8,00 €

In the field of Agreements with Museums and Public Institutions we must unfortunately note that in Italy there is currently a situation that does not allow a generalization of the gratuitousness of access to them on the part of artists.

A specific request AIAPI to the Italian Ministry of Culture, the same stressed that our request “does not seem to be able to be included among what provide the art. 4 of the Ministerial Decree of 1997, December, 11 n° 507 and subsequent amendments, because the category of Professional Artist is not included between those entitled to gratuity...”

On the theme, then, AIAPI hopes to raise awareness among members of the Italian Government and Parliament in order to be able to submit a legislative proposal to amend these limitations in order to be able to operate as in most of the other nations.

AIAPI have been dedicated many resources to this first start of the Association's activities and many are the potential of development about many activities related to the art world and the support of the artists.

AIAPI want to develop other and new agreements and opportunities for artists, supporting their needs through free services that the Association is organizing on several sides, training, organization, economic issues, communications, etc.

In this sense AIAPI has also launched a number of assumptions to involve some Universities on specific themes of the art world and artists in particular, to be able to get useful elements to identify and observe the situations of the artists from which we can start to develop a series of studies and insights useful issues to identify new actions to be taken in the interest of the artist's category.

We now have a direct contact with the Culture Minister and we are waiting for the meeting with the General Director of Contemporary Art and Architecture and Urban Suburbs (miss Federica Galloni) to officially introduce the AIAPI Italian Committee and to propose, agreed and coordinate future activities.

About the IAA/AIAP 2016 conference theme **"Social Security and Mobility of Visual Artists in Europe"** we have to notice that in Italy the artists suffers for a lack of official recognition, and - consequently - also in the international security issue isn't possible for us at the moment to detect meaningful data and we are here as "auditors" of the other Committees relations.

We are really interested on the knowledge of the other national issues on this topic and will be our primary commitment to share the infos to complete also in Italy this analysis.

Thanks again for having accepted in this Great Family in the hope of being able also to make our experiences and our work for the consolidation and development of the art and - especially - of people the art realizes.
